Subject: FW: OR 2012 list action

Hi Everyone,

FYI - EPA has gone out for public comment on a Partial Approval/Partial Disapproval action on Oregon's 2012 303(d) List. EPA is also seeking public comment, data and information regarding possible impairments to aquatic life due to ocean acidification. The comment period is open until Feb 6. Everything can be found at:

<https://www.epa.gov/tmdl/partial-approvalpartial-disapproval-oregon-2012-303d-list>

You might be interested in checking additions to waters in basins that you're working on, and if you have questions or comments, you can talk with the EPA reviewer you're working with. You'll also see that there are about 714 additions for the temperature TMDLs under litigation, since the NCC is no longer in place, and the TMDLs were based on those.

Thanks,
Jenny
